## **27th May 2016**

Dear Parents,

On Monday 23<sup>rd</sup> of May class two went on an amazing trip to @Bristol. They learnt about the basics of science and how babies form and grow. The trip included a workshop about light and shadow, a look around the science centre and a special 3D show in the planetarium.

The Children took part in a light and shadow workshop where they made white into a rainbow and back again, they had a go at light reflection and the 3 primary colours for a rainbow. Whilst exploring @Bristol they had a go on an exercise machine to see how long it would take to burn off certain types of food, apparently a sausage takes seven minutes to burn off!

During the trip they also visited the planetarium. The planetarium opened up its roof and they blasted off into space, they looked at the sun, stars and all the other planets and even went on the surface of mars!

Thank you for all your continued support.

God bless and have a lovely half term break.

*Best wishes from Katie Gray and the staff at Broadhembury School*
